

Cheat Sheet: The Tor Project Browser

The Tor Project is a browser system that allows users to anonymously access websites located on the the “Dark Web,” derived from a software project that was called “The Onion Router.” Websites that can only be accessed via the Tor browser typically have a URL address that ends with “.onion.” The following is a guide for users that are new to Tor.

SETTING UP THE TOR BROWSER

https://www.torproject.org	Information on the Tor Project and Tor Browser can be found here
torbrowser-install-10.0.9_en-US.exe	Download and run this file from the Tor Project website
“Start Tor Browser” icon	Pin a copy of this icon to your desktop task bar for easy access
Connect to Tor	This is the first page you see when you launch the Tor Project Browser
Default Page	Provides you a search bar for the DuckDuckGo default Tor search engine
While on DuckDuckGo select “Onionize” for the Dark Web	Congratulations — you are now ready to start searching the Dark Web, or you can simply use this browser to search the internet anonymously
Type in “whatismyipaddress” hit enter	Go to the https://whatismyipaddress.com website to see your Tor IP locati

http://juhanurmihxlp77nkq...onion/	AHMIA.FI: Tor hidden service search tool for .onion directories
https://www.onionland.io/	OnionLand: dark web search engine for .onion sites by keyword(s)
http://xmh57jrknzkxhv6...onion/	Torch: Tor search tool for locating .onion sites by keyword(s)

TII Cheat Sheet: The Tor Project Browser

CAUTIONS FOR USING THE TOR BROWSER

"Clearnet"	A term meaning that the tool searches for surface and deep web results
Malware threats	Adopt the same precautions for malware here as you would elsewhere
Unable to connect	The website may be down temporarily or permanently
"This site has been seized"	Valid FBI warning indicating the website will be down permanently
"HTML5 canvas image data"	Popup request for identifying your computer system (do not accept)
https://panopticklick.eff.org	Use this website while using the Tor browser to test your browser image

Since December 2014, the Dark Web has undergone significant changes due to law enforcement activities, including the shutting down of hundreds of illegal and scam websites, and IT advancements that mitigate Tor anonymity. The following websites have been confirmed as active or inactive.

FAMOUS DARK WEBSITES NO LONGER ACTIVE

Silk Road (online black market)	Website shut down by FBI after arresting site operator in 2013
HackBB	Dark Web forum for criminals, embezzled by insider mole in 2013
